

September 2022

Dear Valued Customers,

Relocation notice of Sales & Marketing headquarter

We thank you for your cordial cooperation and support to UCHIYA always.

We would like to inform you that we will relocate the Sales & Marketing headquarter and start our business at Kanamachi in Tokyo from the current sales head office in the head factory in Misato, Saitama Prefecture. The reason is that the main factory in Misato has become cramped due to the earthquake resistant reinforcing work for it.

Please contact the Sales & Marketing head office in Kanamachi with the following new address from 26th September when you would like to contact us concerning sales related matters

Taking this opportunity, all of our employees have decided to devote themselves to their duties even harder. We highly appreciate your continued support and look forward to working with you.

Finally, we would like to thank you for letting me present this letter to you.

Sincerely,

Sumito Shimizu, President
Akihiro Suenaga, General Manager of Marketing department
UCHIYA THERMOSTAT CO., LTD.
